## Experience

Makati, PH

March 2019 - September 2020

### Software Engineer

#### Total Integrated Resources

##### Existing Software Products:

- Worked effectively in a team of two programmers in maintaining, debugging, upgrading and modifying existing ASP.NET MVC web applications in C#, .NET Framework, Entity Framework (code-first approach) and MariaDB.
- Develop and implement client customization or specific requirements.
- Worked and integrate third-party APIs, specifically Artificial Intelligence APIs.
- Involved in creating and modifying the first-party APIs to be used by mobile application developers.
- Continually identify areas that needed improvement and make suggestions in measuring the level of adjustment required.
- Analyzed and communicate issues and bugs and proposes solutions.
- Diagnosed issues with software installation and application, identify sources of the problem and offer solutions.
- Helped and support software deployment on offshore clients.
- Manage multiple Internet Information Services (IIS) websites and MariaDB databases.
- Worked independently in maintaining, debugging and modifying existing Laravel-PHP web application and fixing bugs, if any.

##### New Web Applications:

- Assisted senior programmers in designing and developing new ASP.NET MVC web applications and web APIs in C#, .NET Framework, Entity Framework (code-first approach) and MariaDB.
- Assisted senior programmers in developing web APIs using Python, Django MVC and Django REST Framework.
- Assisted senior programmers in developing web APIs in .NET Core and MS SQL.

Makati, PH

May 2010 - November 2018

### Data Analyst III

#### Sencor, Inc.

- Responsible for the maintenance of Repository data and formats using XML formulas and tags.
- Involved in coding, debugging and updating data (lists, forms, images, paragraphs and tables).
- Quality checking of the entire Repository data (old and new) through in-house Web print.
- Communicate with the client through e-mail for data issues and processing problems.
- Training and mentoring new team members.

## Skills

C#

ASP.NET MVC

.NET FRAMEWORK

Web API

Entity Framework (code-first approach)

Git Bash

Django REST Framework

Python

Laravel

PHP

MySQL

HTML

CSS

Bootstrap

JavaScript/JQuery/Ajax

GitHub

GitLab

Employee Trainer

MS SQL

MariaDB

## Education

Quezon City  
May 2018 - November 2018

- Web Development  
**Zuitt - Coding Bootcamp Philippines**  
Coding Bootcamp  
*3rd Top Performer*

Zamboanga  
June 2004 - April 2008

- BS Computer Science  
**Western Mindanao State University**
-
